Allison joined the A.L.L. team in February 2024, bringing a unique blend of technical expertise and administrative precision to the organization. A graduate of Capilano University, she earned her Legal Administrative Assistant certification in December 2023.

Before transitioning into legal administration, Allison spent several years in the mining exploration sector. Her background as a Project Manager and Logistics Coordinator for remote mining camps—bolstered by a 2016 Diploma in Mining and Mineral Exploration from B.C.I.T.—honed her ability to manage complex operations under pressure. At A.L.L., Allison provides vital support to the Executive Director, the Board, and various committees. She is a key contributor to the Membership and Communications Committee, where she manages member relations and departmental tracking.
